## **Tool Use**

01/10/2025 10:41 am BST

Relates to version

Tags: 9.0

Not all tool uses will be relevant for quality, event though it is important to track use/location (e.g. use of a lifting tool or jig may not be required for eCHR quality assurance).

The **Tool Use** Line Type allows you to limit the tool uses recorded in a specific **Tool Type** or **Tool Group**.

## Triggers

Creation or change of a tool use log linked to the item while the eCHR is open.

## Reports

Contents report via the eCHR screen
